

KS2 PSHE Content - The purpose of these resources is to promote equality, celebrate diversity and tackle discrimination.

Equaliteach has gathered together a wide range of resources which cover diversity in its different branches. There are resources which link to disabilities, islamophobia, LGBT issues, cultural diversity and tackling prejudice. There are a mixture of downloadable resources and links to purchasable books to be used in schools. Some of the activities mentioned would be suitable during PSHE/SEAL lessons, but could also blend into other areas of the curriculum, such as debates when learning about government and politics.
