

This letter is from Viola Jepelting and she writes to Sireet OEP to thank them for their financial support for her continued education.

Dear Sirs

RE: Appreciation for the support to my education.

Following the concern and support you had towards my education I hereby appreciate your effort.

I was a student in Our Lady Of Victory Girls Kapnyeberai and in a family with an unstable source of income. My parents were unable to pay my school fees due to rising fees and therefore my studies were frequently disturbed. The well wishers and supporters in the community contributed to the rising fees and I was able to continue with my education with least disturbance.

You (SIREET) being one of the well wishers and supporters who want the young studying Kenyans to excel in their studies contributed a larger percentage to my success. I therefore appreciate the help that you offered to me. May you not decrease your helping power to others in need.

Thank you very much.

Yours sincerely

Jepelting Viola
